

Exercise – 8

Tours & Travel

Build a webpage for Tours & Travel company

- Add page loading animation over the page, once before webpage loads (known as Pre-loaders)
- On the main page there should be a banner video with volume on, which will be have an interactive button to go to the information page(button is not a hyperlink).
- There should be a beautiful button to mute the video on the page
- On the information page, there should be tour and travel stories in a slider.

Notes

- Media Files are available inside the problem statement zip
- Share the plan before the execution
